

RACING FISH

Step 1 – Colour your fish, any colours you want, maybe make it a Rainbow Trout to remind us to be grateful of all the hard work the NHS and other Front-line and Key Workers have been doing during lock-down.

Step 2 – Cut out your fish.

Step 3 – Find a piece of card to flap your fish along the ground.

Race!

Set up a start and finish line. Put your fish on the start line and see who can get to the finish line first by making the fish move by flapping your piece of card, no touching the fish though.
